CYBERCRIME IS REAL

PROTECT YOURSELF. STAY SMART. STAY SAFE.

Online scammers are getting smarter—and they often target seniors.
But you can stop them.

WATCH OUT FOR:

- Fake tech support pop-ups or calls
- Emails or texts asking for money or personal info
- Online “friends” asking for gift cards
- Bogus software updates or virus alerts

Even clicking the wrong link can let a scammer into your life.

You Are Not Alone.

Proxyware helps protect older adults from cybercrime—
and gives you tools to stay safe online.

GRAB A FREE SAFETY CARD TODAY.
